

# FARMEX™

## HT-Pro and DHT 1 - Hay and silage moisture testers

### HT - Pro for baled hay

The first and only hay tester that includes a calibrator, which allows the user to calibrate the tester before each season, each cutting, or any other time calibration is required.

#### Specifications

Backlight	Yes
Moisture Limit	Indication Above and below
Calibration Time	Less than 20 seconds
Accuracy	Throughout normal range of stored, baled alfalfa, timothy and clover hay
Testing Range (Moisture)	8% to 45% moisture
Testing Range (Temperature)	0° to 107°C
Probe Length	50 cm
Warranty	two year limited

### DHT 1 Portable hay moisture tester

Direct readout for % moisture and temperature (°F and °C).

The meter has an extra-rugged probe shaft made from aircraft aluminum and a sturdy pistol-grip handle.

#### Specifications

Operating Range (Moisture)	14.4% to 44% depending on hay tested
Operating Range (Temperature)	32° - 225° F (0° - 107° C)
Accuracy	Accurate throughout the normal range of stored, baled hay
Display Resolution	0.1% moisture
Battery	One 9 volt battery included
